Over the second quarter 2006, **agta record** recorded a turnover of €38.09 million, compared to €36.0 million for the same period of 2005.

Over the half, the sales activity remains sustained with orders reaching €81.11 million, compared to €71.19 million on 30th June 2005, which is a 13.9% increase.

Turnover rose by 11.1% to €72.91 million. Despite this momentum, the order backlog continued to expand to €26.37 million (+ 20%), against €22 million last year. The impact of the change in the scope of consolidation on turnover is estimated at €3.1 million over the period.

Outlook for 2006

This performance suggests marked growth in the second half and enables **agta record** to confirm its forecast of a 5 to 7% annual increase in turnover through organic growth.

The development of the maintenance activity (+10.9% in 1st half) should largely offset the rising cost of raw materials. **Agta record** thus confirms its forecast of 7 to 8% growth in the operating income over the financial year.

By way of reminder, the PACA Ascenseurs Services group will be consolidated as from the second half 2006.
