

Turnover 9 months: + 19.1% Confirmation of annual objectives

Consolidated turnover (1st January – 30th September)

| In M€ | 2007 | 2006 | Variation |
|--|--------------|--------------|----------------|
| Cumulative for nine months | 135,4 | 113,7 | + 19,1% |
| Within the same scope of consolidation and at constant exchange rates | 124,9 | 113,7 | + 9,8% |
| Turnover for 3 rd quarter | 46,2 | 40,8 | + 13,2% |
| Within the same scope of consolidation and at constant exchange rates | 43,9 | 40,8 | + 7,8% |

Over the 3rd quarter, there is a deceleration (+7.8%) in the organic growth of sales due to the effect of a particularly powerful 3rd quarter in 2006, and a downturn of the dollar and the Swiss franc in relation to the euro.

However, there is acceleration in the organic growth of orders over the quarter (+11.3% as against 9% in the first six months of 2007), and the order backlog as of 30th September shows a very marked rise to 47.8 M€ (i.e. +50.3% by comparison with 30-09-2006 and +44,8% by comparison with 30-06-2007).

Good prospects for the entire commercial year

The agta record group envisages an amply traded 4th quarter and confirms its forecast of growth in activity exceeding 15% for the entire commercial year.

The acquisition of BLASI GmbH (a specialist in automatic revolving doors, based in Germany) should generate additional turnover of 3 to 3.5 M€ and a positive current operating result which should compensate for the integration costs arising in the two first months.

Growth in sales in the USA, coupled with the weakness of the dollar, generates a downturn in gross margin. However, this is compensated by dollar purchasing gains which are markedly on the increase, and is also compensated by the weakness of the Swiss franc against the euro.

There is no reason why the economic environment of this field should experience any deterioration in the short term. Accordingly, the agta record reiterates its forecast of 15% to 20% growth in its current operating result for 2007.

The 2007 turnover will be published on 12th February 2008 (after trading).

About agta record

Ranking among the top players on the European market in automatic pedestrian doors, **agta record** relies on its own integrated technological and commercial know-how. The wide range of fields mastered by the group includes the design, production, marketing, installation and maintenance of a wide range of automatic doors.

Based in Switzerland, **agta record** covers more than 40 countries worldwide, through its subsidiaries.

In 2006, the group achieved 164.4 M€ turnover.
